"Sometimes given the high volume of CD's that pass across my desk, it's tough to get anything on the first listen. You typically have to go back, and listen to a disc a few times before you realize whether you 'get' the act or not. I only needed one listen to tell you that Herrick is the real deal, and may very well contain the next great female voice of this generation in Donna Herrick."

(Chuck Dalphin, *Billboard Magazine*)

"What's that sound? Oh yes, I remember. It's called country music. And I don't mean the overly polished kind that Music Row usually serves us. I mean the Real Deal. Herrick warms my hillbilly heart with ringing reminders of what old-school country can mean. My enthusiastic encouragement goes out to all of these folks for doing their jobs so well. Again. I've praised them all before in this column, and I am happy to do so once more."

(Robert K Oermann, *Music Row Magazine*)

Herrick has a hot musical and vocal sound with its own identity. A rarity these days.
